

## FDDOC Winners' Circle A's for Aces Activity & Let's Play Tennis Book Recap

Below are pics from some of the exercises and activities that happened during the FDDOC after school program this fall.

4<sup>th</sup> and 5<sup>th</sup> Grade Class did Activity 29: City I love-Neighborhood Maps had the kids create a map of their neighborhood and share it with the class. The kids learned what consists of a community, how special it is, and learned about other communities their friends live in.

Below are pics from Wednesday's 2<sup>nd</sup> grade tennis class. We read the children "Let's Play Tennis!" which they really enjoyed. I covered the different size balls and rackets, proper clothing, hydration as well as the different size courts depending on your age. The book also touched on warming up, moving your feet, under hand serving, forehands, backhands, and volleys. This reinforced what we've been covering since the beginning of the year. We then went outside and put it to practice.
