The advantages of our Har-tru courts are that they are fast dry, easy on the legs and feet, have a cool surface, and a more natural appearance. The top surface of the court consists of a mixture of both fine and coarse material plus a binder. The sub surface of the court is built to hold moisture. All of this preparation is done carefully, and not rushed, to guarantee that we have the finest tennis courts available all season long. Thank you for your patience.

**Reminders:** Tennis whites and proper shoes are required.  
Reservations cannot be accepted via the Pro Shop voice mail.  
The ball machine can be reserved on court 9.  
Schedule private lessons by contacting the pro directly.
